"Tolerably Well" and Is
Cheered for Referring to
Perdicaris Case.**New York, July 1.—At a mass meet-
ing in Cooper Union, the republican
club has formally opened the local
campaign. The meeting was called
ostensibly to ratify the ticket nominat-
ed at Chicago.Ex-Senator Thurston of Nebraska
made the principal speech. He re-
viewed the republican administrations
of the last eight years in all the various
departments of government and sum-
med up their achievements by declar-
ing that the American people, in look-
ing over the history of these years,
must admit that the "party has done
tolerably well."Demonstrations of approval occurred
several times during the ex-senator's
speech. An allusion to the Perdicaris
incident was loudly cheered.**CORBIN GETS THE PLACE.****Will Succeed Wade in Command of
Division of Philippines.**Washington, June 26.—(Special Cor-
respondence.)—Major General Henry
C. Corbin has been ordered to the Phil-
ippines, and will give up the command
of the Atlantic division on October 1
to assume command of the division of
the Philippines.Orders to this effect were made pub-
lic at the war department and caused
much surprise. It was known that
Major General Wade was to be re-
lieved of the command of the division
of the Philippines, as his period of
duty in the islands will end in Octo-
ber, but it was supposed that Major
General Leonard Wood, now command-
ing the department of Mindanao, was
to succeed General Wade in command
of the army in the insular possessions.By far the greatest interest in the
announcement, however, lies in theprobability that this means the sum-
moning home of General Wood to take
command of the department of the
east, with headquarters at Governors
island, New York harbor.When General Corbin was transferred
from Washington to New York in the
past year, it was regarded as a step
in his progress to the command of
the army. General John R. Brooke
reached the supreme command by that
route, and General Corbin's friends ex-
pected as much for him.His transfer now to the Philippines,
therefore, is not regarded as enhancing
his chances, for no other command in
the army is more highly prized than
the Governors island billet.General Corbin's transfer recalls the
comment made at the time he left
Washington, that President Roosevelt
has been advised there was too much
Corbin in the management of the army
affairs, and that the president would
be making a good stroke by having
Corbin detailed some place else.The Northern Pacific Railway Com-
pany will place round trip tickets from
Portland to St. Louis and return on
account of the world's fair on sale as
follows:

June 16th, 17th and 18th.

July 1st, 2nd and 3rd.

and marshy regions of the country, but wherever there
is bad air this insidious foe to health is found. Poisonous vapors and gases
from sewers, and the musty air of damp cellars are laden with the germs of
this miserable disease, which are breathed into the lungs and taken up by
the blood and transmitted to every part of the body. Then
you begin to feel out of sorts without ever suspecting the
cause. No energy or appet-
ite, dull headaches, sleepy
and tired and completely
fagged-out from the slightest
exertion, are some of the de-
plorable effects of this enfee-
bling malady. As the disease
progresses and the blood be-
comes more deeply poisoned, boils and abscesses and dark or yellow spots
appear upon the skin. When the poison is left to ferment and the microbes
and germs to multiply in the blood, Liver and Kidney troubles and other se-
rious complications often arise. As Malaria begins
and develops in the blood, the treatment to be effec-
tive must begin there too. S. S. S. destroys the germs
and poisons and purifies the polluted blood. S. S. S.
is a guaranteed purely vegetable remedy. Write us
if you want medical advice or any special information. This will cost you
nothing.During 1900 I was running a farm on the Mis-
sissippi River and became so impregnated with
Malaria that for a year afterwards I was a phys-
ical wreck. I took a number of medicines recom-
mended as blood purifiers, chill cures and Mala-
ria eradicators, but nothing did me any good un-
til I began to use S. S. S., which I did about a year
ago. The result was that after taking three bot-
tles of the large size I was as well and strong as I
ever was and have never had a chill since. I ex-
pect to take S. S. S. every year as a preventive,
and would advise everybody else to follow my ex-
ample.
